 Mannheim, Germany

PROFILE

Software Engineer with over 2 years of professional experience developing, integrating, and optimizing enterprise web applications using Java, Spring Boot, React, and REST APIs.

Specialized in backend engineering, microservices architecture, database optimization, and SaaS platform integration within the banking and telecommunications sectors.

Experienced in technical troubleshooting, root-cause analysis, performance tuning, and CI/CD workflows within Agile/Scrum teams.

Resident in Germany under the Chancenkarte with immediate work eligibility and full capability for in-country visa conversion. Holds an officially evaluated Master's equivalent engineering degree (ZAB).

PROFESSIONAL EXPERIENCE

Software Developer / Technical Integration Developer

Apr 2024 – Dec 2025

Almaviva Technology, Tunisia

- Integrated a production SaaS chatbot platform into client systems within banking and telecom sectors by customizing REST APIs, data flows, and configuration logic.
- Enhanced backend system reliability and reduced API response times by optimizing MongoDB queries, implementing caching mechanisms, and setting up asynchronous execution in Spring Boot.
- Developed and maintained core SaaS platform features using Spring Boot, React, Vue.js, REST APIs, and MongoDB within an Agile environment.
- Analyzed technical specifications and executed root-cause analysis, debugging, and log monitoring in production-like environments to ensure high system availability.
- Authored and updated comprehensive technical documentation for system integrations, workflows, configurations, and release processes.

Full-Stack Developer

Sep 2023 – Apr 2024

SQLI Services, Tunisia

- Engineered scalable backend microservices and secure REST API endpoints using Java Spring Boot, Spring Security, Node.js, and MySQL in a distributed architecture.
- Implemented data-driven business logic, secure authentication workflows, and frontend components using ReactJS, React Native, TypeScript, and Tailwind CSS.
- Supported application stability through debugging, web server configuration, and system optimizations on Linux-based environments using Nginx and Apache.
- Contributed to build, test, and automated release workflows using Docker, GitLab CI/CD pipelines, Git, and Agile development practices.

Software Development Intern

Feb 2023 – Jul 2023

DueToData, Tunisia

- Developed a full-stack supply chain management platform using React, NestJS, REST APIs, PostgreSQL, and JWT-based authentication.
- Implemented RESTful API endpoints, data models, business logic, unit testing, and technical documentation.

Software Development Intern

Piximind, Tunisia

Jun 2022 – Aug 2022

- Developed and automated a Chrome extension for structured data extraction using Node.js, JavaScript, and Puppeteer with automated browser workflows.

EDUCATION

2020 – 2023 Engineering Degree (Telecommunications) – ENET'Com, Tunisia
 ZAB certificate evaluation: equivalent to a German Master's degree
2018 – 2020 Preparatory Classes, Physics/Chemistry, Tunisia

SKILLS

Backend: Java, Spring Boot, Spring Security, REST APIs, Microservices, Node.js, NestJS

Frontend: React, React Native, Vue.js, JavaScript, TypeScript, HTML5/CSS3

Databases: MySQL, PostgreSQL, MongoDB, SQL

DevOps & Systems: Git, Docker, GitLab CI/CD, Jenkins, Linux, Kubernetes, Azure

Quality & Testing: Unit Testing, Debugging, Log Analysis, Clean Code

Networking & Telecommunications: TCP/IP, LAN/WAN, DNS, VLANs

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)

Microsoft SC-900 Security, Compliance & Identity

Cisco CyberOps Associate

MTA Python Programming

Certified Kubernetes Application Developer (CKAD) – *in progress*

LANGUAGES

German: B2 (In Progress)

French: C2

English: C2

Arabic: Native speaker
